To whom it may concern

We are leading manufacturers of high quality sauces and condiments to New Zealand's and Australia's best known food outlets, supermarkets and caterers.

Recently we contracted Thermaflo Limited to fabricate some additions and do some alterations to our process plant. Their workshop foreman, Paul Young, visited our site and took all necessary measurements. Much of the stainless steel work needed was fabricated off site so when they returned to carry out the work there was little interruption to our production.

The stainless steel work was carried out to the highest of quality and the tradesmen were very professional to deal with.

We are very happy with the results and plan to use Thermaflo for future work, so are only too happy to recommend Thermaflo to others.
